TecnoCampus Open Space

Open Space is an alternative for a business location, attracting freelance professionals on their path to growth.

It is a shared workspace where collaboration, networking and community are encouraged.

Companies located in the Open Space can also enjoy the common areas of the Park, located on the fifth floor of the TCM2 building and on the fourth floor of the TCM3 building.

Open Space Services

Shared spaces

- Private meeting rooms available to companies.
- Spaces for networking.
- Dining areas.

Community Services

TecnoCampus Community. Participation in networking sessions, informative meetings, “business corner”, work breakfasts, afterwork get-togethers.

Communication and positioning. Presence on the TecnoCampus website as a company linked to the Park and full access to its intranet as a user of all the services provided therein.

Collaboration with the **University Talent Exchange.**

Enhanced support for **financing, internationalization, acceleration programs** and technology and innovation **park networks.**

Rental of conference spaces with the right to discounts.

Access to the TecnoCampus **car park** with preferential rates.

Open Space Services

Technological services

Plug and Play equipment. Its technology infrastructure is adaptable and scalable, which means any company can move in and be operational immediately using their own machinery and software.

Broadband internet connection. VLAN networks. Switching and routing connectivity management. Virtual switchboard with own management. IP terminals. WI-FI throughout the premises with VPN connection.

Infrastructure services

Fully finished spaces with climate control. Company signage in park directories.

Reception service

Parcel reception and correspondence service.

Building security service

Access to the office 24 hours by card with personalized codes. On-site security service on the ground floor.

Open Space Services

Cleaning service

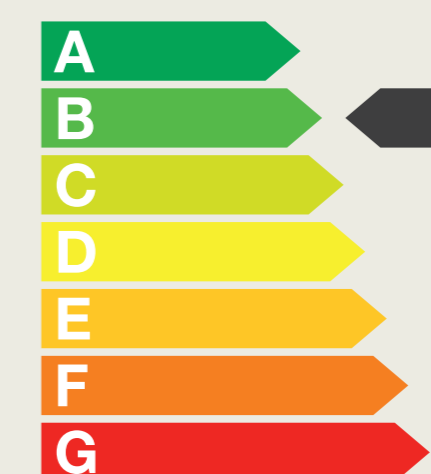

Cleaning services for the entire shared space and the rest of the common areas of the building.

Maintenance services

Maintenance of common areas and general repairs to the building. This service is not intended for any individual modifications that a company want to make in relation to the infrastructures.

Specific services

Fully furnished space with desk, chairs and cabinets. Face-to-face or remote HelpDesk support service. Costs are included in the transfer price to companies.

Energy certification label

The TecnoCampus has the label B in the energy rating of the building, on a scale between G and A in which A is the highest rating.
