

EIT Urban Mobility Innovation and Entrepreneurship Fellowship

Study, innovate & connect with Europe

This fellowship complements TecnoCampus I&E master's degree, providing students with additional tools and resources to become skilled innovators and entrepreneurs in urban mobility and smart cities.

MATARC
HUB4T

 **TecnoCampus**

Centre universitari adscrit a la

 **upf.** Universitat
Pompeu Fabra
Barcelona

 **Urban Mobility**

Co-funded by the
European Union

Join the Fellowship and accelerate the transition to sustainable mobility and more livable cities in Europe and the world!

International exposure

Participate in summer schools and international events such as Tomorrow. Mobility World Congress, where you can network and obtain a global perspective on urban mobility innovations (registration and travel expenses covered).

Funding

Access to exclusive funding opportunities like the Student Entrepreneur Grant Scheme (up to 6000 euros).

Networking

Network and connect with industry leaders, startups, fellow students and alumni from around the world. EIT Urban Mobility is Europe's leading innovation community for urban mobility and related fields.

Skill development

Gain practical experience and skills through hands-on projects and interdisciplinary online courses.

EIT Label Certificate

After completing the program, you will receive an EIT Label certificate to recognize your specialized training in innovation and entrepreneurship within the urban mobility sector.

TecnoCampus + EIT UM Entrepreneurial & Innovation Ecosystems

Continue your entrepreneurial journey by developing your project into a startup with the resources and support of EIT Urban Mobility and TecnoCampus incubation and acceleration programs and communities.

How to become a fellow

There are no application fees for enrolling in the Fellowship. More information: uniemprenedora@tecnocampus.cat
